CPTP Training Coordinator Webinar

February 2, 2016

A. Updates

- Competency Sorts

  - 55% complete; HAM & NOLA appointments to start soon

  - . Call Rosanna with questions

- Professional Development webinars: Success Series Webinars

  - About 350 of 500 seats registered. Link to register is on CPTP website in Current Projects

  - 3rd Thursday of each month; 1st one will be Feb 18 at 1 PM.

- CPTP Policy Board

  - New member: Johnny Anderson - Governor's Office, Deputy Chief of Staff, Programming & Planning

  - Waiting on Board of Regents to fill the other open seat

  - Next board meeting is March 9, 2016, 2:00

    - Preliminary results of learning transfer study for Core Program will be discussed.

    - All welcome to attend; Thomas Jefferson room, Claiborne Building, BR

- CPTP Calendar now available!

  - On the CPTP website there is a new tile named "Calendar" that shows open schedule.

- Searchable by location, course title, etc.

- Updated monthly

- CPTP YouTube Channel

    - Can search for videos

    - We will be posting any videos we create.

    - Will host the Success Series Webinars within a week of the webinar taking place.

- Web course problems

    - Payroll Mondays and Tuesdays should be avoided since bandwidth issues may cause delays and/or difficulties completing courses on these days.

- Training Coordinator Summit

    - We are considering offering a daylong event for TCs where we demonstrate TC best practices and offer additional training that TCs may be interested in.

    - We'll do a preliminary survey – poll – today to gauge interest in attending a TC Summit. Poll results: 98% of you are interested.

    - We will send a survey about specific interests for the summit in 2 – 3 weeks and present results at next webinar.

B. New Course Release –CPTP Conflict Management WBT has been revised and released. We combined old Conflict Management and Peer-to-Peer Conflict web classes. Great for all employees. Also is

an elective for both Group 1 and Group 2 in the Choice requirement.

C. Question posed: Problems with courses freezing? You can't leave the course sitting; extended inaction will cause LEO to time-out in the background. You will not be aware this has happened. As long as you are working within the course, you should not experience a time out.

Next webinar is Tuesday, March 1, 2016.
